

Alternative vs. Flexpoint

Why more MSPs are choosing Alternative Payments over FlexPoint

MSPs are losing money and time with FlexPoint's hidden fees, slow ACH processing, and basic support. Here's why 600+ MSPs have made the switch.

Switching Is Easier Than You Think

Hundreds of MSPs have moved to Alternative Payments. If you're thinking about switching, you're not alone. We've helped teams of all sizes move fast and migrate cleanly—without disrupting cash flow.

We don't just give you software. We guide you through the switch, every step of the way.

Here's how we do it:

- ✓ PCI-compliant migration of ACH and credit card data
- ✓ White-glove onboarding with a dedicated success manager
- ✓ Prebuilt templates to notify clients of the new portal
- ✓ PSA and accounting system integration done for you
- ✓ Typical go-live: 7–14 business days
- ✓ No downtime, no lost payments, no surprises

Real Results, Real MSPs

These aren't just nice quotes. They're outcomes our partners are experiencing every day.

"We had a holiday weekend issue and the CEO of Alternative Payments called me personally to help fix it. That just doesn't happen elsewhere."

Gary Allen, TeamLogic IT
Utah Valley

"Our collections used to take a month. Now they're done in about 10 days. It's hands-off, seamless, and completely changed how I spend my time."

Keith Willis, CEO,
ECX Systems

"Our collections used to take a month. Now it's 10 days—and I don't touch a thing. Everything updates automatically from the client to our bank to QuickBooks to ConnectWise."

Jeremy Roth, CEO,
S1 Technology

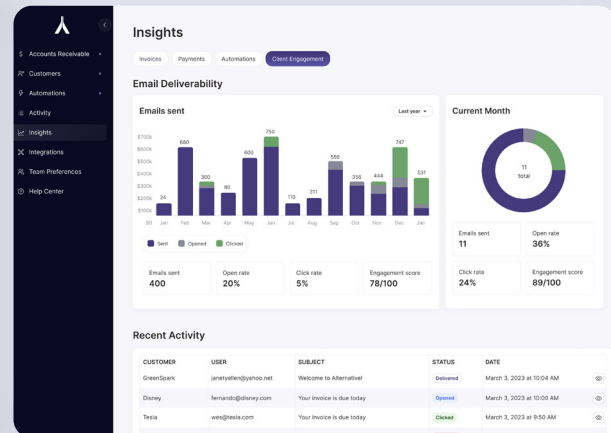

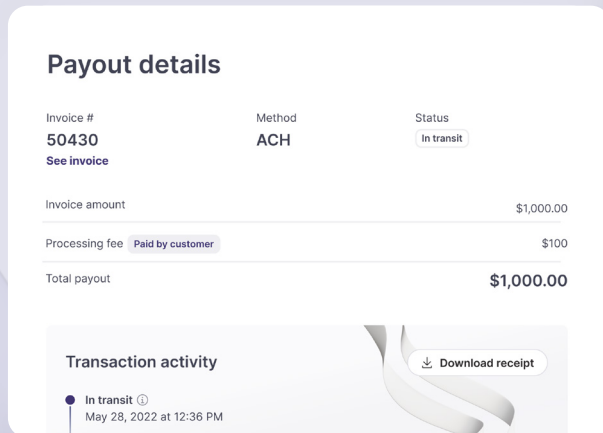

"If you take into account our monthly flat fee for Alternative versus the fluctuating fees we had before, we saved between 75 and 80 percent."

Stephen Kaupp,
Valiant Technology

How It Works Under the Hood

We built Alternative Payments to give MSPs control, clarity, and confidence across every part of their AR workflow. Here's how it all works together—without the friction.

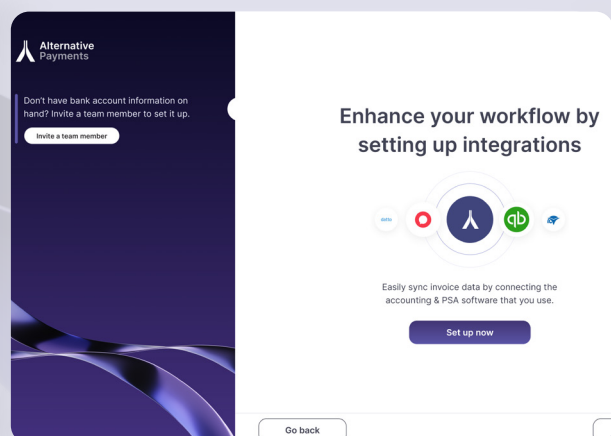

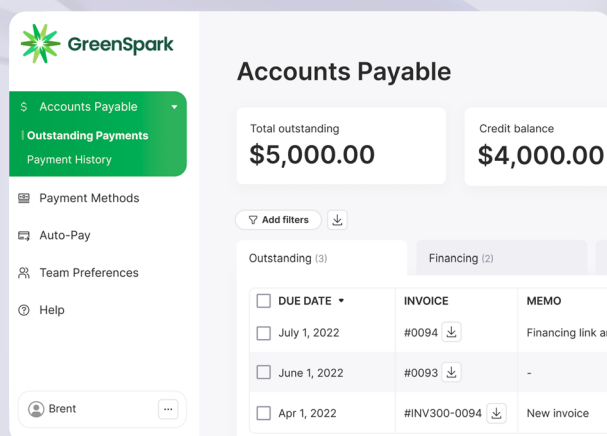

Auto-Matched Deposits

Our reconciliation logic matches 95% of deposits automatically, even across payment types. No clearing accounts. No manual merges. Just clean books and faster close.

Behavior-Based Insights

Know who's about to pay late—before they do. Our platform learns from client behavior and flags risk, so you can take action early and protect your cash flow.

Client-Friendly Portal

No logins needed to pay. Autopay setup in two clicks. End clients can manage multiple entities, pull invoice history, and pay how they want—without calling your team.

True PSA + Accounting Sync

We sync deeply with ConnectWise, Autotask, Halo, and SuperOps—and your accounting system. No re-auth loops. No broken syncs. Just alignment between tools, finally.
